

CNH Industrial CNH Industrial is a global leader in the capital goods sector that, through its various businesses, designs, produces and sells agricultural and construction equipment, trucks, commercial vehicles, buses and specialty vehicles, in addition to a broad portfolio of powertrain applications. Across its 12 brands, 64 manufacturing plants, 49 research and development centers and a workforce of more than 70'000 people, CNH Industrial is present in 180 countries giving it a unique competitive position.

FPT Motorenforschung AG in Arbon has around 250 highly qualified employees working with commitment and acknowledged success. Our activities: all aspects of powertrain research and development for road vehicles and off-road applications. We are looking for a

Product Support Technician

Efficient powertrain research and development requires dedicated tools and simulation systems (HW and SW). Our research center develops, produces, sells and supports these dedicated products that are used at production sites or at various customers all over the world.

Your tasks

- You are the focal point for all customers for first level support
- You create commercial offers and manage the product delivery
- You compile and deliver the technical product documentation
- You support the purchasing department in component sourcing
- You manage the components inventory for the production
- You support the product commissioning at the final customer
- You actively contribute to the development of the products

Your profile

- You have completed a technical college or a degree in electrical engineering
- You have good knowledge of MS Office tools (Word, Excel, Power Point etc.)
- You have good German and English skills (B2 spoken and written), Italian skills are a plus
- You are a highly motivated self-starter and team-player with very good communication skills
