

Iveco Group N.V.
Corporate Seat: Amsterdam,
the Netherlands
Chamber of Commerce
Registration no.
83102701

Iveco Group (MI: IVG) is a global automotive leader active in the Commercial & Specialty Vehicles, Powertrain, and related Financial Services arenas. Each of its eight brands is a major force in its specific business: IVECO, a pioneering commercial vehicles brand that designs, manufactures, and markets heavy, medium, and light-duty trucks; FPT Industrial, a global leader in a vast array of advanced powertrain technologies in the agriculture, construction, marine, power generation, and commercial vehicles sectors; IVECO BUS and HEULIEZ, mass-transit and premium bus and coach brands; Iveco Defence Vehicles, for highly-specialised defence and civil protection equipment; ASTRA, a leader in large-scale heavy-duty quarry and construction vehicles; Magirus, the industry-reputed firefighting vehicle and equipment manufacturer; and IVECO CAPITAL, the financing arm which supports them all. Iveco Group employs approximately 34,000 people around the world and has 28 manufacturing plants and 29 R&D centres.

FPT Motorenforschung AG in Arbon has around 250 highly qualified employees working with commitment and acknowledged success. As the main innovation center for FPT Industrial, the site is involved in developing future powertrain solutions (not only in electrified powertrains, hybrids and fuel cells, but also novel engines concepts and alternative fuels) and is therefore at the forefront of a transition towards a future of alternative propulsion systems.

We would like to fill the following position as soon as possible:

OBD Calibration Technical Specialist

The OBD Calibration Technical Specialist (OCTS) represents the primary technical expertise for the diagnostic calibration development of a specific subsystem/area of competence.

His/her calibration responsibility is mainly focused on new OBD features and concepts. In addition, he/she acts as workgroup technical leader of a cross-functional and cross regional team.

Your tasks

- Development of harmonized calibration procedures (pre-requisites, WPA/BPU definition, test description, facilities, duration, completion criteria...)
- Implementation of advanced, automated and global RLM methods / procedures and tools
- Definition of OBD system functional requirements (hardware and software)
- Support to the deployment of OBD projects monitoring requirements
- Definition of Standard OBD Calibration activity plan
- Implementation of lessons learnt/process corrective actions
- Coaching of less experienced OBD calibration engineers

FPT Motorenforschung AG
Schlossgasse, 2
Postfach 80
9320 Arbon – Switzerland
Ph: +41 71 447 74 77
VAT n° CHE-108.055.502
