

Iveco Group N.V.
Corporate Seat: Amsterdam,
the Netherlands
Chamber of Commerce
Registration no.
83102701

Iveco Group (MI: IVG) is a global automotive leader active in the Commercial & Specialty Vehicles, Powertrain, and related Financial Services arenas. Each of its eight brands is a major force in its specific business: IVECO, a pioneering commercial vehicles brand that designs, manufactures, and markets heavy, medium, and light-duty trucks; FPT Industrial, a global leader in a vast array of advanced powertrain technologies in the agriculture, construction, marine, power generation, and commercial vehicles sectors; IVECO BUS and HEULIEZ, mass-transit and premium bus and coach brands; Iveco Defence Vehicles, for highly-specialised defence and civil protection equipment; ASTRA, a leader in large-scale heavy-duty quarry and construction vehicles; Magirus, the industry-reputed firefighting vehicle and equipment manufacturer; and IVECO CAPITAL, the financing arm which supports them all. Iveco Group employs approximately 34,000 people around the world and has 28 manufacturing plants and 29 R&D centres.

FPT Motorenforschung AG in Arbon has around 250 highly qualified employees working with commitment and acknowledged success. As the main innovation center for FPT Industrial, the site is involved in developing future powertrain solutions (not only in electrified powertrains, hybrids and fuel cells, but also novel engines concepts and alternative fuels) and is therefore at the forefront of a transition towards a future of alternative propulsion systems.

We would like to fill the following position as soon as possible:

Team Leader Testing Services Electrification

Your tasks

- Leading of the Testing Services Electrification group in all technical, commercial (OPEX budget) and personnel aspects.
- Coordination of E-bench testing activities (battery, module, cell, E-driveline, fuel cells) to guarantee milestones and taking care of the correct accounting to development projects.
- Coordination and supervision of the battery prototype assembly shop to guarantee high quality of the specimens used for bench and vehicle testing.
- Definition and application of appropriate methodologies and measurement equipment to be compliant with WW legislation such as R100, R10, etc.
- Data post-processing and analysis together with our post processing team.
- Development and continuous improvement of internal functional, endurance and end of line test procedures together with the engineering team.
- Make sure that well known ISO, IATF and internal company standards are applied.
- Driving force behind the investments for the electrification testing infrastructure to support the project manager for CAPEX.

FPT Motorenforschung AG
Schlossgasse, 2
Postfach 80
9320 Arbon – Switzerland
Ph: +41 71 447 74 77
VAT n° CHE-108.055.502

Your profile

- MS degree in Electrical Engineering, Chemical Engineering or Physics
