

Iveco Group (MI: IVG) is a global automotive leader active in the Commercial & Specialty Vehicles, Powertrain, and related Financial Services arenas. Each of its eight brands is a major force in its specific business: IVECO, a pioneering commercial vehicles brand that designs, manufactures, and markets heavy, medium, and light-duty trucks; FPT Industrial, a global leader in a vast array of advanced powertrain technologies in the agriculture, construction, marine, power generation, and commercial vehicles sectors; IVECO BUS and HEULIEZ, mass-transit and premium bus and coach brands; Iveco Defence Vehicles, for highly-specialised defence and civil protection equipment; ASTRA, a leader in large-scale heavy-duty quarry and construction vehicles; Magirus, the industry-reputed firefighting vehicle and equipment manufacturer; and IVECO CAPITAL, the financing arm which supports them all. Iveco Group employs approximately 34,000 people around the world and has 29 manufacturing plants and 31 R&D centres.

FPT Motorenforschung AG in Arbon has around 250 highly qualified employees working with commitment and acknowledged success. As the main innovation center for FPT Industrial, the site is involved in developing future powertrain solutions (not only in electrified powertrains, hybrids and fuel cells, but also novel engines concepts and alternative fuels) and is therefore at the forefront of a transition towards a future of alternative propulsion systems.

We would like to fill the following position as soon as possible:

Technical System Responsible

Your tasks

- Coordinate a cross functional Advanced Engineering team (Aftertreatment, Engine Testing, Controls, OBD and Hybrids) in order to achieve the project deliverables for Euro VII / 7 with focus on Light Commercial Vehicles Diesel engine families.
- Complete the target setting and identify the best Euro VII / Euro 7 architecture during the Concept Selection Phase considering the best trade-off for all targets.
- Share key technical updates and decision with the Innovation Teams.
- Follow-up and reporting on the Euro VII/7 Technical System activities.

Your profile

- Master's degree in mechanical engineering or a comparable course of studies
- Solid background as technical system responsible or project manager.
- At least 5 years working experience with Internal Combustion Engines.
- Great teamwork and communication skills.
- Demonstrate excellent strategic technical leadership skills.
- Self-motivated with the ability to manage multiple task.

- Fluent English (spoken and written), Italian and German skills would be an asset.

The job location is Arbon, Switzerland or in alternative Turin, Italy, with 25% travelling to Arbon.
